# PROFILE COLLECTION

The ultimate expression of performance-driven artistry.

This collection is a cut above the rest, not just in name, but in every curve, contour, and cut. Each wheel features advanced 3-axis surfacing, where precision machining meets intentional design. We blend smooth transitions with aggressive detail, creating forms that are not just engineered, they're sculpted.

# PRO TOURING FORGING PROFILES S E R I E S

## STANDARD

**Available In: 18 • 19 • 20 • 22 • 24**  
The center is flat with a convex profile allowing for the most hub height clearance on front spindles. Often used on the front for maximum backspace.

## CONCAVE

**Available In: 18 • 19 • 20 • 22 • 24 • 26**  
This center has a slight inward curvature to the center of the wheel for stylish appearance with out being overly aggressive. Often used for maximum backspace.

## CONCAVE DEEP

**Available In: 18 • 19 • 20 • 22 • 24**  
Substantial inward curvature to the center of the wheel. Pronounced and deep concavity for a dynamic and aggressive look.

# B - FORGED FORGING PROFILES

## SERIES

### TOURING SERIES

#### Concave Styling

Engineered for exceptional style and performance, these wheels share the standout characteristics of the RXL Series while achieving a lighter weight through a maximum leg extension of 1.5 inches. Available in two forging profiles, they are designed to deliver the ideal staggered fitment, perfectly complementing your vehicle's stance and functionality.

**SIZES:**  
18 • 19 • 20 • 21 • 22 • 24  
**Widths up to 15"**

#### AVAILABLE TOURING FORGING PROFILES

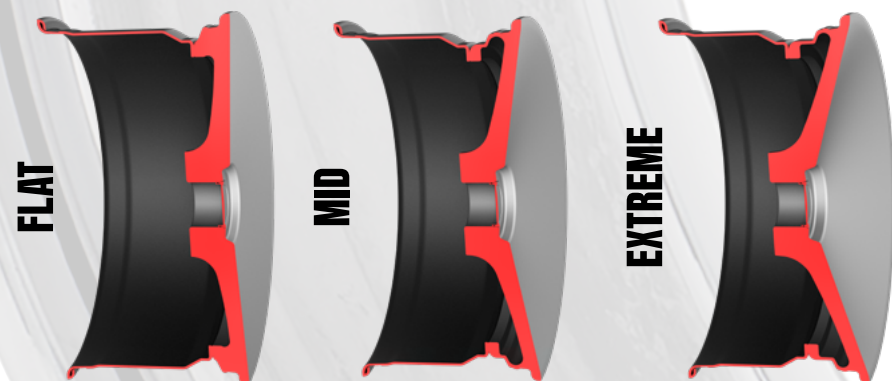

### DUO SERIES

#### Concave Styling

Looks of a mono-block wheel with extreme concave face profiles and design features that extend to the rim edge. The Duo Series is constructed of two components – the outer rim and center profile as 1 piece with a fastened inner rim. This Series allows you to take a mono-block style and customize it with different center and inner rim finish options with exposed or hidden hardware. Offered in 3 forging profiles to accommodate any vehicle fitment.

**SIZES:**  
19 • 20 • 21 • 22 • 24  
**Widths up to 14"**

#### AVAILABLE DUO FORGING PROFILES

### RXL SERIES

#### Reverse Lip - Extreme Concave Styling

Crafted to push the boundaries of design, the RXL Series combines bold aesthetics with staggered front and rear center profiles for a distinctive, aggressive look. The larger outer rim enhances depth and presence, making a striking statement on any vehicle. Offered in three forging profiles with up to 4.5 inches of leg extension, these wheels are engineered to fit a wide range of vehicle applications seamlessly.

**SIZES:**  
18 • 19 • 20 • 21 • 22 • 24  
**Widths up to 15"**

#### AVAILABLE RXL FORGING PROFILES

### SXL SERIES

#### Step Lip - Extreme Concave Styling

Designed with a floating spoke feature that extends to the edge of the rim for an aggressive and bold performance look, featuring staggered front and rear center profiles. 3 forging profiles available to accommodate your vehicle fitment with leg extensions up to 4.5 inches.

**SIZES:**  
19 • 20 • 21 • 22 • 24  
**Widths up to 15"**

# SLC SERIES

## Styling at its finest

The SLC Series features wheels that tastefully depart from the ordinary and predictable to breathe some excitement into your ride. The soft flowing detail of each spoke is a telltale sign that the SLC Series is so much more than the ordinary straight-cut billet wheel. Our attention to detail pays off in styling that screams excellence. Custom built just for you, these stunning wheels are ready for big brakes and are available in a wide range of diameters 17 - 28.

# CUSTOM FINISHES

## Solid Finish Options

This is a standard solid powder coat color in gloss or matte sheen

## Brushed Finish Options

The center or rim is brushed finished before a transparent powder is applied

## Polished Finish Options

The center or rim is polish finished before a transparent powder is applied

## Brushed/Polished with Transparent Finish

The center has both brushed & polished surfaces before a transparent powder is applied. Call for more info.

# STEERING WHEELS

Choose your...

We are the worldwide leader in Billet steering wheels for many reasons. We offer the widest selection of styles, top grain leather colors, outstanding quality, and fast delivery. Our relentless attention to detail is apparent both front and back on these works of automotive art.

The face of each half-wrap steering wheel boasts a custom front steering ring that is available in your choice of a wide array of leather colors, simulated burlwood, or carbon fiber finishes. The backside of each wheel features milled finger notches for an ultra-comfortable grip. Designs are available in 14" & 15.5" diameter and will fit in most any vehicle imaginable.

STEERING WHEEL

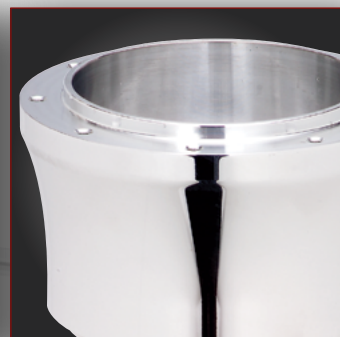

HALF-WRAP RING

HORN BUTTON

COLUMN ADAPTER

# D-SHAPED STEERING WHEELS

D-Shaped steering wheels offer race inspired design matching today's trends with Billet Specialties quality. Each wheel is precision 3D machined from 6061-T6 aluminum with milled finger notches and aggressive style. Each wheel includes both black and polished rivets allowing you to customize the final look. Select from four top grain leather choices plus simulated Carbon Fiber or wrap your own with a blank wrap to match your interior.

Features:

- Race inspired D-shaped design
- Precision 3D machined
- Milled finger notches
- Polished or black hard anodized finish
